

Master of Architecture I Prerequisite Work Sheet

For applicants to the Master of Architecture I Professional Program only. Return completed form to the Office of Admissions, School of Design, University of Pennsylvania, 110 Meyerson Hall, Philadelphia, PA 19104-6311. PLEASE DO NOT USE AN ATTACHED SHEET.

Prerequisites (Professional Degree)

To be admitted to the Master of Architecture Professional Program without conditions, an applicant must have successfully completed a minimum of two (2) semesters of college-level design studios. An applicant is also required to possess an understanding of mechanics, heat, light, sound, and electricity as demonstrated, for example, through the successful completion of not less than one college-level physics course; an understanding of calculus, as demonstrated, for example, through the successful completion of not less than one college-level calculus course; a general knowledge of the history of Western architecture from ancient Egyptian through modern period, as demonstrated by the successful completion of not less than one college-level course; and a basic ability to produce freehand drawings of architectural forms and spaces, as demonstrated by the successful completion of one college-level drawing course or by portfolio submissions of appropriate work from design studios. List fulfilled prerequisites or their equivalent below. Include the course number if available, title, institution, instructor, and grade you received. If you are unable to recall the course number, substitute the semester or quarter when taken. Candidates who are conditionally admitted with deficiencies in any of these prerequisites must fulfill them before matriculation.

		course number and title	institution	instructor	grade
Design Studios	1	_____			
	2	_____			
Physics		_____			
Calculus		_____			
History of Western Architecture		_____			
Drawing		_____			

Equivalent Courses (Professional Degree with Advanced Standing)

An applicant for Advanced Standing in the Master of Architecture Professional Degree Program is required to have a B.S. or B.A. in Architecture from an accredited four-plus-two professional program or have successfully completed the equivalent of the first year of our Master of Architecture program's architectural design, theory, technology, and drawing courses. List equivalent courses below. Include the course number if available, title, institution, instructor, and grade you received. If you are unable to recall the course number, substitute the semester or quarter when taken.
