Since Dilworth Park is so landscaped, as much greenery as possible would be welcome. It would be great to have a place other than Rittenhouse with a lot of trees^{and lawns} and benches. Since the LOVE Statue is iconic, putting some kind of amphitheater or small stage for live music or ~~events~~^{events} would be great. A ~~space~~^{restaurant} space similar to the dining at 39th and Walnut or at Sister Cities Park with the green roofing would be great.

Add a Philly touch too -- put a mural somewhere, or some interactive space. You don't want this park looking just like Rittenhouse or anything else in another city's downtown. Maybe ^{a free mini} art gallery with samples of work from each of the Parkway museums, since this is the gateway to the Parkway, could be an idea.

PHILADELPHIA
PARKS & RECREATION

I think start in the same way that Dilworth Park has begun as a place providing a place for culture to flourish, Love park needs to maintain the same ideals when engineering a #newlovepark. It needs to encompass more than the letters L.O.V.E. People need to feel it. And it needs to speak for every demographic that is Philadelphia Pennsylvania

The first thing "LOVE Park" needs to do is STOP, STOP STOP the ridiculous RACIAL groups like the *ISREAL School of U.P.K. from taking away from the PEACE of the surroundings. This should be a peaceful park area with no political or religious groups interfering. I AM SURE if another racial group would get-up & say what these people are saying all hell would break-out! Love=Peace, so please do something about it! Thank you

We, the People, are wanting to move the Gen. Meade Equestrian statue that sits behind Memorial Hall, to the top of The Parkway, which would be the North west corner of Love Park. (over) Gen. Meade was the first Fairmount Park commissioner and the Victor at Gettysburg and should be honored as such. The placement of the statue would be celebrated as a major event for Philly and our place in the Civil War
