Abstract: This collection comprises a reference file on topics related to architectural design and construction, maintained by the office of Paul Philippe Cret and continued by his successor firm Harbeson Hough Livingston and Larson (later H2L2). It is primarily an image file of clippings from published material. Also found are entire articles from publications as well as some photographs, drawings and manuscript material.

Cataloging: Collection-level records for materials in the Architectural Archives may be found in WorldCat, an international union catalogue of library and archival holdings. The record number for this collection is 230738183.

Biographical/Historical Sketch

This collection comprises a reference file on topics related to architectural design and construction, maintained by the office of Paul Philippe Cret and continued by his successor firm Harbeson Hough Livingston and Larson (later H2L2). That firm donated the file to the Free Library of Philadelphia in 1969. The collection was transferred to the Architectural Archives of the University of Pennsylvania in 2005.

Scope and Content Note

This collection is primarily an image file ("plate file") comprising clippings from published material. Also found are entire articles from publications as well as some photographs, drawings and manuscript material. The file remains as organized by the firm with its own numbered classification scheme. A small group of materials was separated from the main file: photographs and oversized published materials, together with drawings and manuscript materials closely connected with Paul Cret, materials directly related to Cret projects and materials directly related to the Philadelphia region. These may be found interfiled according to the Cret classification numbers at the end of the collection.
