Biographical/Historical Sketch

Frederick W. G. Peck was born in Philadelphia, July 2, 1909. He studied at Haverford College, 1927-1929 and received the degree of Bachelor of Landscape Architecture from the University of Pennsylvania in 1933. He established his landscape architecture practice in 1933, which he continued for more than forty years. He taught Landscape Architecture at the University of Georgia, 1937-1940. He was lecturer at the Barnes Foundation, 1938-1941 and Assistant Professor at the University of Pennsylvania from 1940-1941. After serving in the U.S. Army Corps of Engineers during World War II, he returned to teach at the University of Pennsylvania, 1946-1952 and to resume his private practice. Peck specialized in the design of residential properties, but he also engaged in industrial landscape development, campus planning and the design of parks and playgrounds.

Scope and Content Note

The collection contains records of the landscape architectural practice of Frederick W. G. Peck, together with his publications and teaching records.

The collection is arranged in four series:

- I. Architectural Drawings.
- II. Project Files.
- III. Photographic Materials.
- IV. Writings.
- V. Teaching Materials
- VI. Biographical/Personal Materials
- VII. Reference Notes and Clippings

For most projects represented in this collection, job numbers assigned by Peck's office, are not available. As some projects have proved difficult to date reliably, project-related materials in Series I and II are arranged in alphabetical order using short project names devised by the Architectural Archives. In most cases, a project for a personal client is named using the surname of the client, e.g., Johnson House.

A full index to projects represented in this collection is found in Appendix A.
