

SCHOOL OF DESIGN

To meet the intensive computing performance needs of PennDesign students, these systems are custom-configured with substantially more powerful specifications. The Dell workstations on this page include Dell Precision Optimizer, a software utility which tunes performance for the workstation applications you are actually using.

Dell Precision T5810

Xeon E5-1630v4 64GB/2x512GB SSDs | \$3629
 Windows 10 Pro 64 - 3 Year Warranty
 32GB Memory version available for \$3329
 Upgrade Memory to 128GB for \$4559

This powerful Intel Xeon-based workstation with an 8 GB NVIDIA Quadro graphics card is optimized for graphic-intensive and CPU-bounded workloads.

A selection of displays for use with the T5810 is available on campusexpress.upenn.edu
