About Aedas and Aedas Beijing Office

Aedas is the world’s only local and global architecture and design practice driven by global sharing of research, local knowledge and international practice. Our 1,400 creative minds with design studios across the globe create world-class design solutions with deep social and cultural understanding of the communities we design for. We create world-class design solutions that are tailored to the needs of cities and communities around the world.

We provide an inspiring environment to our most talented designers to deliver solutions that create a positive impact in the communities they are intended for. Our global platform provides all of our experts globally, with access to the latest thinking.

Currently Aedas has 12 global offices in Asia, Europe, Middle East and America. The practice has been ranked one of the world’s top 10 architecture firms for 16 consecutive years by internationally renowned magazine Building Design. Aedas provides architecture, arts, graphic design, interior design, landscape design, urban design and masterplanning services to a wide range of developments spanning across mixed-use, retail, office, residential, hotel, infrastructure, social infrastructure and urban planning, completing over 100 projects totalling over nine million square metres of space. Its projects have received a number of international and regional awards.

Under the leadership of Dr. Andy Wen, Aedas Beijing office was established in 2002 and is the first office of Aedas in Mainland China. In the past 20 years, the business of Aedas Beijing office has covered the country and all over Asia. The award-winning design works are full of cultural features. Its extensive project experience covers masterplanning, mixed-use developments, offices, education and cultural facilities, luxury hotels and high-end residences. And its achievements in large-scale commercial complex and super high-rise building are particularly outstanding.
