

Internship: Join Denmark's Most International Architectural Company

Henning Larsen is looking for interns who are able to join our office in Copenhagen.

The duration of the internship is 6 to 12 months, and the internship is paid.

As an intern, you will get the opportunity to work with projects in Scandinavia and globally. Within the past year, our interns have been working on projects such as a museum in Norway, a masterplan in Belgium and a town hall in Sweden.

You will work with the design process through participation in competitions, sketch proposals and design development phases. The goal is for you to develop competencies within a variety of fields at all levels. Proficiency in Rhino, Vray, Grasshopper, Revit and the Adobe package is an advantage.

Our interns make up a multi-disciplinary, international team of students within architecture, landscape architecture, constructing architecture, engineering and communications. A successful internship at Henning Larsen Architects has plenty of perspectives and can lead to further employment or posting to one of the organization's seven global offices. In the office, you will meet and interface with our various specialists - including sustainability, acoustics and space planning - all with a high level of professionalism, based on knowledge and practical experience.

If you want to take a look at our everyday life, you can follow us on Facebook or Instagram — the spirit of our offices is lively, dedicated and busy.

Send your application, CV and portfolio as PDF (no more than 5 MB) or website link - write 'Internship Architect' in the subject line - and send it to HR Manager Anette Karstenskov at jobs@henninglarsen.com.

Be aware that you must be undergoing an education within architecture, landscape architecture or design to be eligible for the position and have finished a Bachelors degree. We need your application no later than May 31, 2019 you being able to start 19 August 2019.

About Henning Larsen

Henning Larsen is an international architecture company with strong Scandinavian roots. Our goal is to create vibrant, sustainable buildings and cities that reach beyond themselves and become of durable value to the user and to the society and culture that they are built into. Our company was founded in 1959 and currently employs around 300 people. Currently, we have offices in Copenhagen, Munich, Hong Kong, Oslo, Faroe Islands and New York.
